The right person. The right opportunity. Every step connected.

The consulting team builds the connection. JobSeam gives the work around it a shared home.

The right person. The right opportunity.

The consulting team builds the connection. JobSeam supports the work around it.

THE CANDIDATE

Skills. Experience. Plans.

What can I bring?

What work fits my goals?

Profile and document permissions

→

PLACEMENT

The connection your team builds.

Review. Coordinate. Follow through.

People make the decisions.

←

THE OPPORTUNITY

A role. A need. A client.

What does this role need?

Who could be a good fit?

Review and sharing controls

JOBSEAM **Less chasing. More context. A record of the work.**

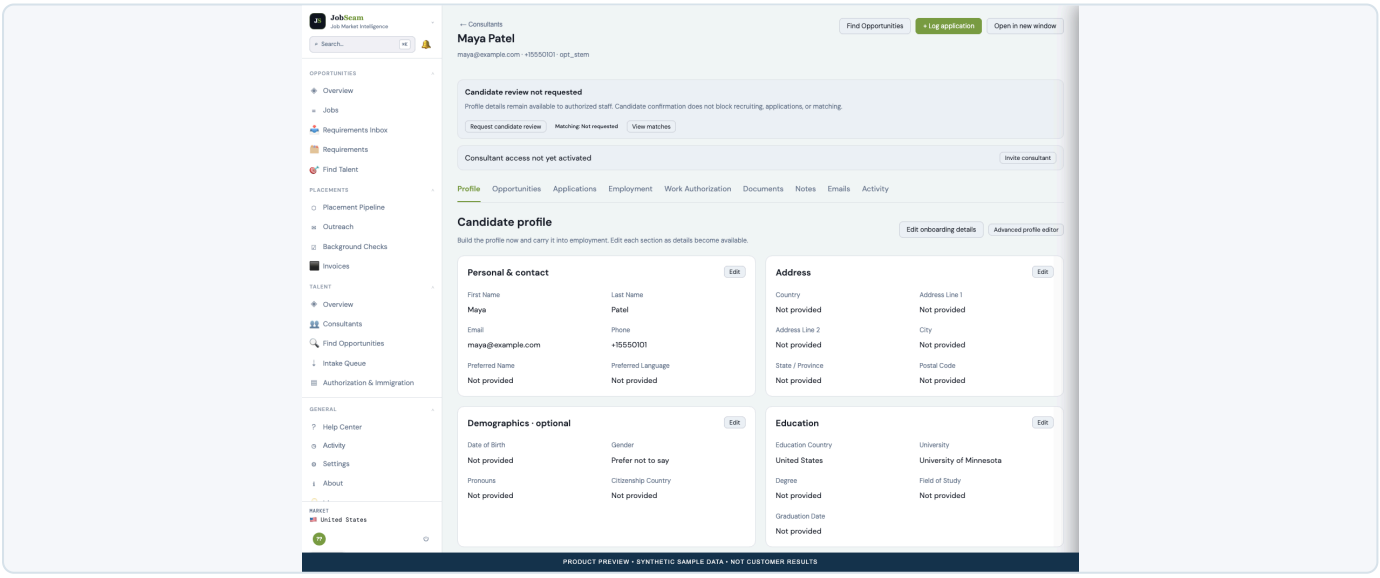

Intake and matching • Applications and follow up • Roles, permissions and access history

Illustrative workflow. Controls depend on configuration. Not a placement or security guarantee.

Illustrative workflow. People make the decisions. No placement outcome is guaranteed.

One person. One connected workspace.

Keep the profile, preferences, applications and next steps together. Invite the consultant to review details and contribute updates.

Actual light-theme interface. Synthetic sample data, not a customer profile.

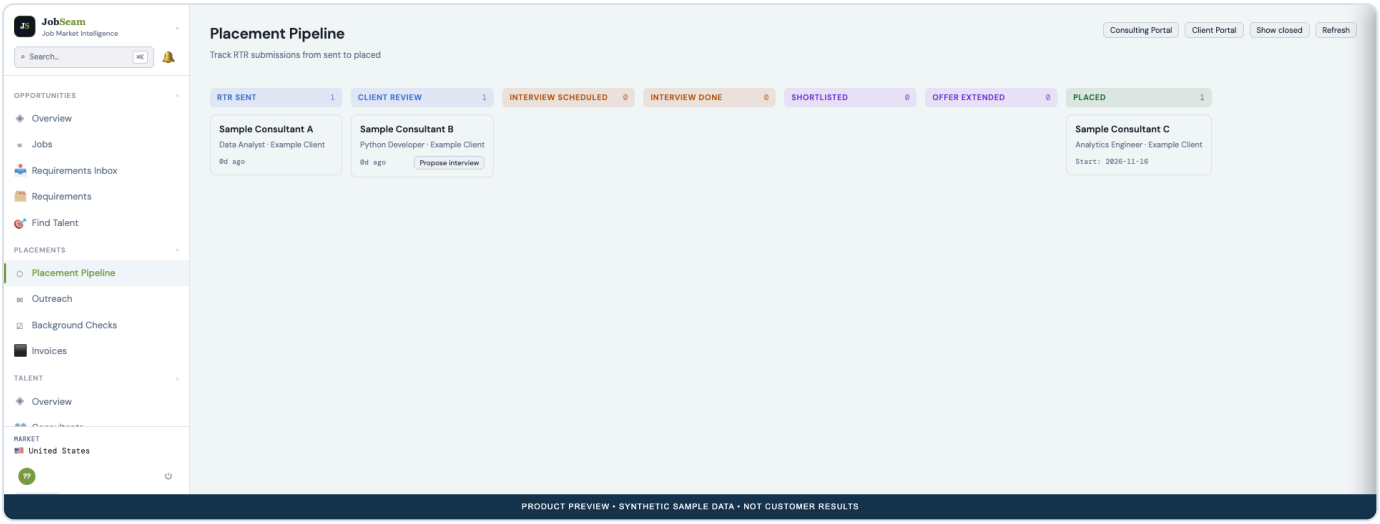

Bring your workflow. Let's walk through it.

jobseam.com · connect@quezaal.com

Less chasing. More context. A record of the work.

Keep the next step visible.

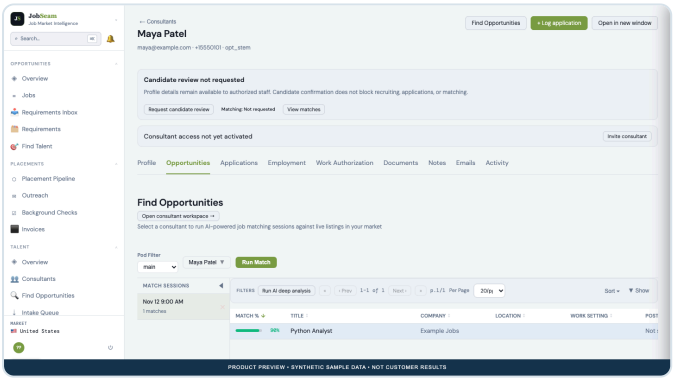

Follow submissions through client review, interviews, offers and placement. See where the work stands.

Sample submissions. Not actual placement results or conversion rates.

Find a fit. Read the evidence.

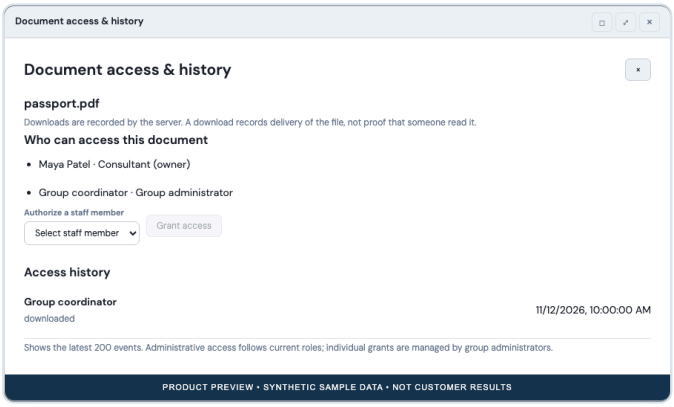

Review saved matches and skill gaps. Request deeper AI analysis when needed.

Illustrative scores. Not a prediction of hiring success.

Be clear about access.

Use roles and document permissions. Review who can access a file and recorded activity.

Product view, not a security certification.

Bring your workflow. Let's walk through it.
